

SRI 4-H Fair Poultry

Poultry Guidelines:

1. Birds showing any signs of sickness or that have external parasites (lice or mites) will be disqualified.
2. When transporting poultry in warm weather, allow circulation of air around the birds and provide them with water. Do not close them in a box or leave them in a hot car in the warm weather.
3. A knowledge test may be given, at the discretion of the superintendent. The score from this may be added to the showmanship and class score.
4. The top two overall scores will be deemed champion and reserve champion. Any other placings after that will be judges discretion. This score will be a combination of showmanship, breed class, and knowledge test, if given that year.
5. All 4-Hers will be required to take care of their own animals. This includes feeding and watering their animals for the duration of their animals being at the fair. This includes cleaning the cages out at the end of the weekend.
6. NO WATERFOWL are allowed at the SRI 4-H Fair.
